

The unique dive float directional system assures optimum cleaning performance from the water line to the pool bottom. Automatic valve regulates water flow to set the ideal travel speed for more thorough cleaning.

### Features

- The pool cleaner works automatically and irregularly to clean the pool floor and at the same time filter the water. No labor is needed.
- Long life using, easy operation, and efficient cleaning.
- The flow rate of the plumbing must 4.5m<sup>3</sup>/h for normal operation. Use the automatic regulator valve to adjust the working speed of the cleaner to 8'-12' (2.4m-3.6m) per minute.

### Spare parts

Model Number	Work Flow	Hoses	Carton Dimension (cm)
73274	4.5m <sup>3</sup> /h	Blow molded hose 10pcs*0.8m	48*13*108
