

These are high performance, totally corrosion proof sand filters that blend superior flow characteristics and features with easy operation. Efficient flow and totally balanced backwashing is your professional choices for your pools.

73030

73035

## Dimensions

## Application

- Small size swimming pools of all types
- In-ground spas (residential or commercial)
- Water features (fish ponds, fountains, water gardens)

## Features

- Flange clamp design allows 360° rotation for easy installation.
- Top diffuser ensures even distribution of water over the top of the sand media bed. All internal piping is 1.5" (Dia: 50mm) to give smooth, free-flowing performance.
- The tank molded of polymeric material HDPE
- Drain for rapid winterizing or servicing.
